

Raport of using AI instruments in developing the project

Davut Muhammetgurbanov:

Used Claude AI to write styles in Tailwind to save time. Because wanted to put effort and time into developing and managing the project and practise project orchestration, writing in Python , rather that wasting time on styles.

Aylar Sopyyeva:

Used ChatGPT to learn to write in React and Typescript , and write design in TailwindCSS to save time.

Yunus Karatayev:

Used ChatGPT to get ideas and how to improve code in React and Typescript.
